Endura Stone Design Sketch Sheet Instructions

Balustrade and Railing by Pacific Columns

1. Draw a birds-eye view of where you are going to have railing. You can see by the example below on how to draw your birds-eye view.

2. Enter the length of each railing section with the total length in inches.

IMPORTANT: Measurements should be to the outside corner for new installations and to the post or column for remodels.

3. Next, label each section of railing as a Run. You can see the example below on how to label each run.

4. Enter the data into the Project Data Chart.

New Construction				Remodel
